COMPANY PROFILE

Who we are

Trishakti Apparel is a **full-package (FOB) knit garment manufacturer** in Gaidakot, Nepal. We produce private-label knitwear — t-shirts, polos, sweatshirts, hoodies and activewear — to our customers' own designs and tech packs, from fabric sourcing through to retail-ready, branded finishing. Founded in 2023, we build on a **33-year family fashion legacy** (Trishakti Stores, est. 1991) and today supply 750+ retail and wholesale stores across Nepal alongside our growing export business.

We are a development partner, not just a contract sewer: with in-house Optitex CAD we take a sketch or reference to a graded, production-ready pattern — and we are candid about what we hold and what is in progress on compliance.
